

OCHSNER

AIR FALCON 212 C11A M1-5

55 °C

35 °C

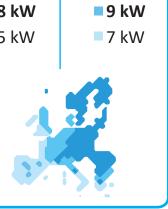

■9 kW

Heat pump specification:				
Manufacturer:	OCHSNER			
Model:	AIR FALCON 212 C11A			

Information on energy efficiency class and rated output:

	average/low	average/medium
Energy efficiency class, central heating:	A++	A+
Rated heating output:	8,5 kW	7,5 kW
Energy efficiency, central heating:	164,3 %	120,1 %
Annual energy consumption, central heating:	4200 kWh	5035 kWh
Sound power level in internal spaces:	27,2 dB(A)	

Special provisions for assembly, installation and service:

The system was sized, connected, laid out and filled in accordance with applicable standards, regulations and ordinances by a qualified contractor. If the system consists of several sections, these must be connected and installed using original OCHSNER accessories as supplied by OCHSNER. System sections must be connected via the shortest route possible and must not exceed a connection distance of 5m. In accordance with the operating and installation manual, the system is used as intended for a private building heating system. Commissioning must only be carried out by OCHSNER Customer Service. Maintenance and inspection according to the manufacturer's instructions must be carried out at least every 12 months unless legal requirements and ordinances specify a shorter interval.

Additional details:	low	medium		
Rated heating output, cooler climate:	9 kW	6 kW		
Rated heating output, warmer climate:	7 kW	5 kW		
Energy efficiency for central heating, cooler climate:	129,7 %	87,9 %		
Energy efficiency for central heating, warmer climate:	225,7 %	145 %		
Annual energy consumption for central heating, cooler climate:	6687 kWh	6511 kWh		
Annual energy consumption for central heating, warmer climate:	1636 kWh	1806 kWh		
Sound power level in external spaces:	54,2 dB(A)	54,2 dB(A)		

Specification for temperature controller:

Manufacturer:	OCHSNER		
Model:	OTS-Regler		
Controller category with room remote control:	VI	-	
Contribution of controller to central heating energy efficiency with room remote control:	4	%	
Controller category without room remote control:	II	-	
Contribution of controller to central heating energy efficiency without room remote control:	2	%
